

Exhaustive System Verification & Testing Checklist

This checklist defines step-by-step verification flows for **every page and function** inside the Web Inertia POS system, explicitly including **Add, View, Edit, Delete, Disable/Enable, Archive/Void, and Export** actions across all user roles.

1. DEV PANEL (Developer / Super Admin)

The Dev Panel is accessed by accounts with the `super_admin` role. All paths are prefixed with `/developer`.

1.1 Dashboard Overview (`/developer`)

- ☐ **View Overview Metrics:**
 - ☐ Confirm summary counters render: Total Stores, Active Subscriptions, Pending Review count, Total Revenue.
 - ☐ Confirm registration charts and audit logs summary widgets load.

1.2 Tenant Store Management (`/developer/tenants`)

- ☐ **Add / Provision Store:**
 - ☐ Click **Create Store / New Tenant**.
 - ☐ Fill in Store Name and Owner Email. Select initial Plan.
 - ☐ Submit and verify a unique signed magic onboarding URL (`/setup/{user}`) is generated.
- ☐ **View Store Listing:**
 - ☐ Search stores by name or email.
 - ☐ Filter store list by status (Active, Suspended, Expired).
- ☐ **Edit Store Status / Suspend / Disable:**
 - ☐ Click **Suspend** on an active store. Verify store status changes to inactive immediately.
 - ☐ Click **Unsuspend / Activate** on a store. Verify store status returns to active.
- ☐ **Export / Remind Tenant:**
 - ☐ Click **Send Renewal Reminder** to dispatch notification emails.

1.3 Subscription Plans (`/developer/billing`)

- ☐ **Add Pricing Plan:**
 - ☐ Click **Add Plan**.
 - ☐ Enter Plan Name, Description, Duration (in months), and Price (PHP).
 - ☐ Submit and verify it appears in the active plans list.
- ☐ **View Pricing Plans:**
 - ☐ Review pricing packages list with durations and prices.

1.4 Announcements & Broadcasts (`/developer/broadcasts`)

- ☐ **Add / Broadcast Announcement:**
 - ☐ Create announcement message text.
 - ☐ Select Alert Level (Info, Warning, Critical).

- ☐ Click **Broadcast**. Verify banner displays on tenant admin and cashier dashboards.
- ☐ **Delete / Clear Announcement:**
 - ☐ Click **Clear Broadcast** in the Dev Panel.
 - ☐ Verify the warning banner disappears for all users.

1.5 Global Audit Trail (/developer/activity-logs)

- ☐ **View Action Logs:**
 - ☐ View list of log entries showing Actor Name, Target Store, Action Type, Description, and Timestamp.
 - ☐ Filter logs using search queries.
- ☐ **Export Activity Logs:**
 - ☐ Click **Export CSV** and verify the full activity trail downloads as a CSV file.

1.6 Legal Policies (/developer/policies)

- ☐ **Edit Policies:**
 - ☐ Modify content text fields for **Terms of Service** and **Privacy Policy**.
 - ☐ Save updates and verify changes reflect on the tenant registration setup pages.

1.7 Co-Super Admin Accounts (/developer/users)

- ☐ **Add Admin:**
 - ☐ Click **Invite Super Admin**. Fill Name, Email, Password, and save.
- ☐ **Edit Admin:**
 - ☐ Click **Edit** on an admin user, update their Name/Email, and save.
- ☐ **Delete Admin:**
 - ☐ Click **Delete** on an admin user. Confirm deletion and verify they can no longer log in.

1.8 System Configuration (/developer/system-info)

- ☐ **Edit Global Settings:**
 - ☐ Modify App Name, Support Email, Support Phone, and Official Business Address.
 - ☐ Upload a logo image file. Save and verify branding updates across the app.
- ☐ **Add Payment Method:**
 - ☐ Open payment method builder. Select **GCash** or **Maya** button.
 - ☐ Confirm provider type, display label, and icon auto-populate.
 - ☐ Input Account Number and Account/Business Name and save.
- ☐ **Edit Payment Method:**
 - ☐ Click edit icon, modify details (e.g. business name), and save.
- ☐ **Delete Payment Method:**
 - ☐ Click delete icon on a payment method. Save system settings and confirm removal.

1.9 Payments Verification (Finance Hub)

- ☐ **Pending Approvals (/developer/payments/pending):**
 - ☐ View list of pending uploads showing GCash/Maya badges next to reference numbers.
 - ☐ Click receipt thumbnail to open the lightbox image overlay.

- ☐ **Approve Transaction:** Click Approve. Confirm payment status becomes approved, store subscription extension updates, and store status becomes active.
 - ☐ **Reject Transaction:** Click Reject. Input reason (e.g. *Receipt blur*) in the popup modal. Save and confirm status changes to rejected.
 - ☐ **Export Pending list:** Click **Export List PDF** to download the list of pending approvals.
 - ☐ **Overdue & Expired Accounts (/developer/payments/overdue):**
 - ☐ View suspended accounts. Verify suspension status.
 - ☐ **Upcoming Renewals (/developer/payments/upcoming):**
 - ☐ View list of stores nearing expiration (7/30 days). Send manual email notifications.
 - ☐ **Payment History Log (/developer/payments/history):**
 - ☐ View logs of all approved/rejected payments.
 - ☐ Search by reference number, store name, or filter by status.
-

2. ADMIN PANEL (Tenant Store Owner)

All pages are accessed by authenticated tenant users with the **admin** role.

2.1 Magic Onboarding (/setup/{user})

- ☐ **Add Store & Owner Credentials:**
 - ☐ Open onboarding link. Enter Store Name and Owner Password.
 - ☐ Submit and verify redirect to the **Setup Success Page**.

2.2 Dashboard Analytics (/dashboard)

- ☐ **View Sales Charts:**
 - ☐ Verify KPI metric counters (Gross Sales, Net Profit, Sales Count) load.
 - ☐ Verify daily sales line graphs and product velocity breakdowns render.
 - ☐ Review low stock alerts.

2.3 Reports (/reports)

- ☐ **View Sales Summaries:**
 - ☐ Filter sales data by date ranges (Today, Yesterday, Last 7 Days, Month, Custom).
- ☐ **Export Sales Data:**
 - ☐ Click **Export Excel/CSV** to download spreadsheets.
 - ☐ Click **Export PDF** to generate formatted printable report pages.

2.4 Inventory Management (/inventory)

- ☐ **Categories (Add, View, Edit, Delete):**
 - ☐ **Add:** Create a new category (e.g. *Beverages*).
 - ☐ **View:** Check category display in the inventory sidebar.
 - ☐ **Edit:** Select category, rename it, and save changes.
 - ☐ **Delete:** Click delete category icon. Verify category is removed and products under it update.
- ☐ **Products (Add, View, Edit, Delete, Disable, Adjust Stock, Export):**
 - ☐ **Add:** Click Create Product. Verify a unique SKU code is generated. Enter Name, Cost, Retail Price, stock count, and low stock threshold. Save product.

- ☐ **View:** Confirm the product displays in the active inventory table.
- ☐ **Edit:** Edit product details (pricing, thresholds) and save changes.
- ☐ **Delete:** Click delete product. Confirm prompt. Verify product is removed.
- ☐ **Disable/Enable (Toggle Active):** Toggle active switch to disabled. Verify the product disappears from the cashier's POS product search. Toggle it back to active.
- ☐ **Adjust Stock (Audit Logs):** Adjust stock levels with a custom audit reason (e.g. *Damaged* or *Re-stock*). Verify changes update in inventory.
- ☐ **Export / Import:** Click **Import Products** to upload a bulk products list via CSV file.
- ☐ **Print Barcode Labels:**
 - ☐ Checkboxes next to products. Click **Print Barcodes**.
 - ☐ Confirm layout preview displays correctly aligned thermal labels.

2.5 Sales transactions (/transactions)

- ☐ **View Transaction History:**
 - ☐ View list of completed checkouts. Search by Receipt ID or Reference Number.
- ☐ **Archive / Void Sale:**
 - ☐ Select a paid transaction. Click **Void Transaction**.
 - ☐ Verify transaction status updates to voided, cash reports update, and products return to inventory.

2.6 Shift Records (/shifts)

- ☐ **View Shift logs:**
 - ☐ Review historical cashier shift sessions showing opening/closing tallies.
 - ☐ View details showing expected cash vs counted cash and discrepancies.

2.7 Store Settings (/settings)

- ☐ **Edit receipt info:**
 - ☐ Modify Store Name, Phone, and Address.
 - ☐ Customize receipt Header/Footer text messages. Save changes.

2.8 Staff Accounts (/users)

- ☐ **Add Staff (Invite):**
 - ☐ Click **Invite User**. Confirm **Account Number** displays "Generating..." and assigns a unique numeric ID.
 - ☐ Enter Name, Email, Password. Select Role (Admin/Cashier). Save.
- ☐ **Edit Staff:**
 - ☐ Edit user details (Name, Role) and save.
- ☐ **Disable / Enable Staff:**
 - ☐ Toggle user status to inactive. Verify cashier is immediately blocked from logging in.
- ☐ **Delete Staff:**
 - ☐ Click delete on a user. Confirm deletion.

2.9 Store Billing & Subscription Portal (/portal/billing)

- ☐ **Add / Submit Renewal:**

- ☐ Select plan from pricing grid -> verify expiry preview updates.
 - ☐ Select payment method -> input reference number -> upload receipt.
 - ☐ Click submit -> verify page redirects to pending screen.
 - ☐ **View Recent History:**
 - ☐ Confirm the Recent History table displays up to 5 items with plans, timestamps, and rejection warnings.
 - ☐ **View Full History (Modal):**
 - ☐ Click **See More** to confirm the scrollable overlay lists all records.
-

3. CASHIER ROLE (POS Operator)

3.1 Onboarding Setup (/setup-account/{user})

- ☐ **Add Credentials:** Open email invite. Fill cashier credentials and security questions to activate.

3.2 Shift Gate (/pos)

- ☐ **Add / Open Shift:** Access POS. Enter **Starting Cash amount** and click Open Shift. Verify register unlocks.
- ☐ **Close Shift:** Click Close Shift. Enter **Closing Drawer Cash**. Print shift summary and confirm register locks.

3.3 POS Sales Terminal (/pos)

- ☐ **View / Select Products:** Search products by name/SKU, toggle categories, scan barcode.
- ☐ **Cart Actions (Add, Edit, Delete):**
 - ☐ **Add:** Click item to add to cart.
 - ☐ **Edit (Quantities/Discounts):** Click + or - to edit quantities. Apply discounts.
 - ☐ **Delete:** Click trash icon to remove product from cart. Clear all cart.
- ☐ **Held Orders (Add, Retrieve, Delete):**
 - ☐ **Add:** Click Hold Order, enter identifier name.
 - ☐ **Retrieve:** Click Retrieve held orders, select order.
 - ☐ **Delete:** Click delete icon on a held order.
- ☐ **Checkout Checkout Payment:**
 - ☐ Click pay. Select Cash, GCash, Maya, or Card.
 - ☐ Input cash tendered, verify change calculation.
 - ☐ Click complete transaction. Confirm thermal receipt modal displays.
